BRAC UNIVERSITY

Quiz 2 **Department of Computer Science and Engineering** **SET E**

CSE110: Programming Language I Duration: 35 minutes Marks: 20

Name: (Please write in CAPITAL LETTERS)	ID:	Section: 42

1. Write a python program that will at first take exactly one word from the user as an input. If the length of the word is odd then it will print the ASCII value of the characters of the odd indexes. Otherwise, print 'Length is even'.

[Marks 10]
[CO 3 + CO 4+ CO 6]

Sample Input 1:
Hello
Sample output 1:
e - 101
l - 108
Explanation:
The length of the word 'Hello' is 5 which is odd. The characters of odd indexes are e (index 1) and l (index 3). The ASCII values of e and l are 101 and 108 respectively.

Sample Input 2:
Football
Sample output 2:
Length is even
Explanation:

The length of the word 'Football' is 8 which is even. So the output is 'Length is even'.

2. Trace the below table. You MUST show the trace table. [Marks 10]
[C0 3 + CO 4 + CO 6]

1	`value = ""`
2	`i, j, k = 0, 0, 15`
3	`while i< 5:`
4	`    k-=1`
5	`    j = k`
6	`    while j > 11:`
7	`        if (j % 2) != 0:`
8	`            value = str(i) + "-->" + str(int(j / 3))`
9	`        else:`
10	`            value = "-->" + str(int(i / 5)) + str(value) + str(j)`
11	`        print(value)`
12	`        j = j-1`
13	`    i+=1`
14	`print(value == '-->01-->412')`
15	`print(int(8.9)/2+3*5)`
16	`print(True and False or not False)`
17	`print(True == 'True')`
